

# PAINT, SUPPLIES, & ACCESSORIES FLYER

**NOTE:** Shipping for all standard orders in the continental US is now \$11.00. Contact us for Alaska, Hawaii, and International shipping quotes.

**NOTE:** If your order contains spray paint (shipped in the continental U.S. only), the standard shipping rate is \$14.00 and must be shipped by ground methods.

**NOTE:** Items returned to us will have a restocking fee of 25% deducted before a refund is issued.

**NOTE:** Please provide alternates/substitutions when possible so we are better able to fulfill your orders.

**NOTE:** We can only fulfill orders placed using the 2024 Model Catalog and Accessories Flyer. All other orders will be returned.

**NOTE:** Prices are subject to change.

D-3 Red	D-9 Gray	D-15 Transparent Dark Blue	D-19 Transparent Turquoise Blue
D-5 Pink	D-10 Lavender	D-16 Clear w/black spots	

## LMG ENTERPRISES

Micro-Mesh is the original "Cushioned" abrasive. Backed with a flexible cloth and resilient inner layer, that large, micron-graded silicone carbide crystals recede to an even planing level as they establish each successively finer scratch pattern. The "cushioned" action minimizes deep random scratching and unnecessary steps, unavoidable with conventional abrasives, resulting in extended abrasive life, the best surface finish possible, and fewer steps. Micro-Mesh Regular is not an aggressive stock remover. Use conventional abrasives up to 240 grit sandpaper and then begin the Micro-Mesh regular series. Using water as a lubricant is encouraged to extend abrasive life and cool the work surface.

This polishing system works excellent on all enamel, lacquer, and acrylic surfaces and is also ideal for polishing bare plastic as well as removing scratches in clear parts. For best results, follow directions. Used correctly, this system will produce beautiful results, even on badly orange-peeled enamel surfaces. With proper care, the abrasive cloths may be cleaned and reused indefinitely, making this a great value.

For the ultimate, glass smooth finish on models, use LMG Kit #2200 after painting. This kit contains: eight 3" x 4" reusable abrasive cloths (1800, 2400, 3200, 3600, 4000, 6000, 8000, & 12000 grits) a 1" x 2" x 3" foam sanding block, 1 oz. Micro Gloss polish in a spill-proof applicator bottle, 1 oz. bottle Micro Finish, a 12" x 12" soft flannel polishing cloth, and complete instructions. Polish included will do several models.
